

COX™ Dispensing Solutions

2-Component Dispensers

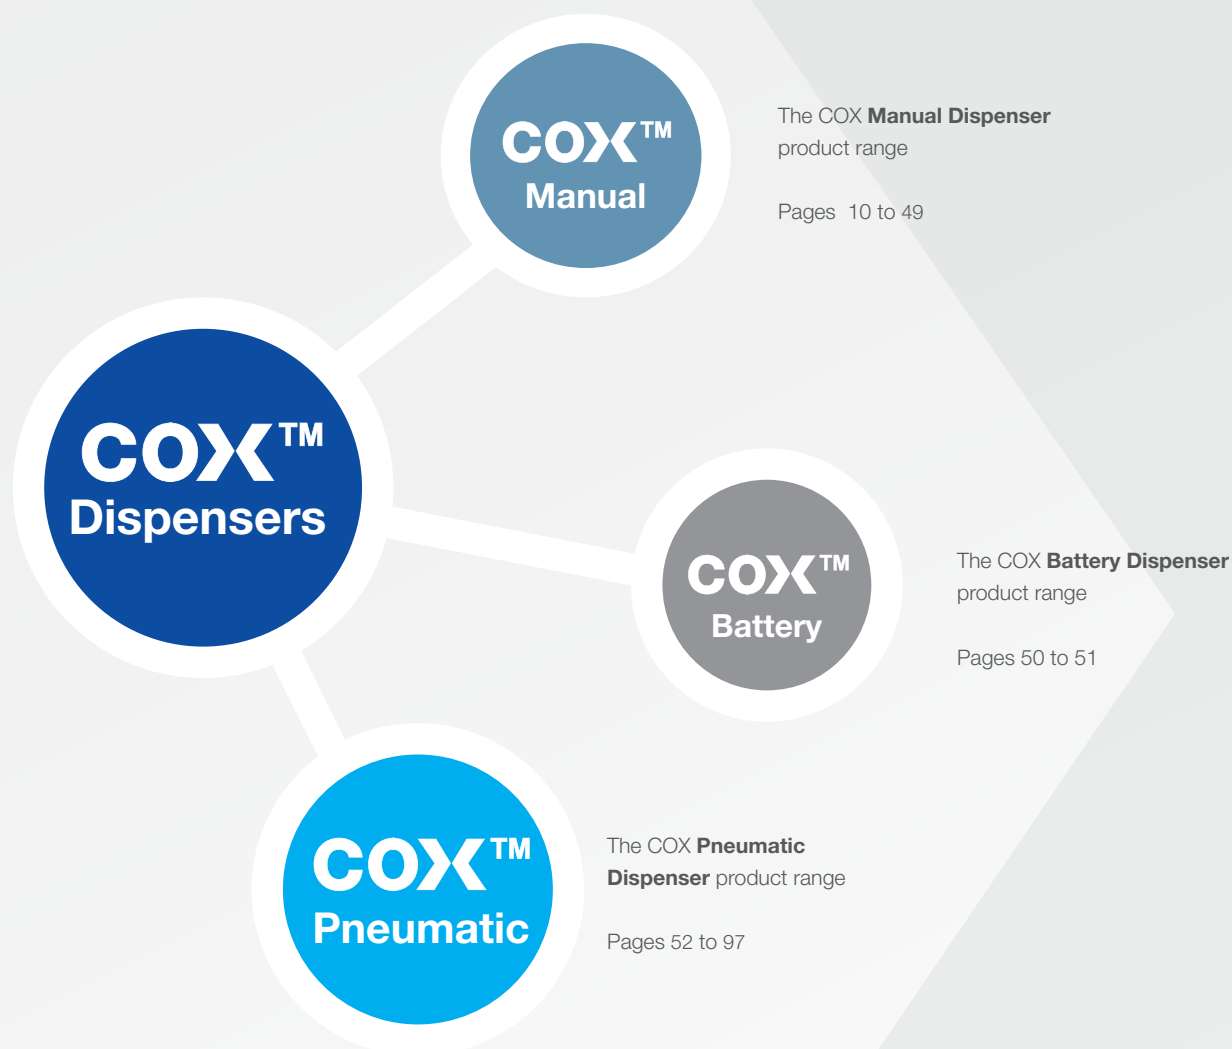

Dispensing Expertise

2-Component Dispensers

COX™ System Overview

The tradition, quality, reliability and performance of the COX™ Dispensers originally manufactured and supplied by PC COX since 1958 continues into the future as part of the Sulzer Mixpac product portfolio.

Offering a range of excellent standard products, as well as a constant product development and surveillance of the market, Sulzer Mixpac is able to meet any of your various requirements. In close co-operation with manufacturers of sealants/adhesives and professional end users, we meet even very specific and stringent requirements. Adaptation and flexibility are key words for our product development. As a manufacturer, Sulzer Mixpac offers high reliability on deliveries and customized labelling of our products. With these performances we have been appointed A-supplier with Europe's leading distributors of dispensing tools.

The renowned COX Dispensers will be available through Sulzer Mixpac AG and its affiliates while Sulzer Mixpac AG has entrusted Sulzer Mixpac (UK) Ltd. to continue with the manufacture of the dispensers at the PC COX site in Hungerford, UK.

Originally established in 1958 by Patrick Clement Cox, Sulzer Mixpac (UK) has become the global market leader in the design and production of manual, pneumatic and battery hand held sealant and adhesive applicators. Our success story and growth started with our first product, still manufactured due to its popularity and reliability but now known as the EasiFlow HD. Subsequent later models, with a new mechanism incorporating a smooth rod with clutch and release plate, became the worldwide industry standard. The PC COX product range, which includes cartridge, sachet, bulk, one and two-component dispensers, were originally manufactured at our factory in the UK and will be continued to guarantee professional quality. On July 1st 2016 our name changed from PC Cox Ltd to Sulzer Mixpac (UK) Ltd. To ensure retention of our strong brand and market position, Sulzer Mixpac (UK) Ltd continues to market our products under the well-known and widely-recognized COX brand: Sulzer Mixpac (UK) Ltd., 1 Tealgate, Charnham Park, Hungerford RG17 0YT, UK. Email: coxsales@sulzer.com, Phone: +44 (0)1488 647 800.

COX™ 2-Component Dispenser

AirFlow™ 1 CBA 200C

A 2-component pneumatic 400mL dispenser for cartridges.

Model shown: AirFlow 1 CBA 200C 400mL

Product advantages

- Air return as standard
- Minimum trigger pressure
- U-opening steel frame
- Quick exhaust valve
- Warranty up to 2 years*

Customer benefits

- Fast, accurate and effortless application
- For effortless use and minimum fatigue
- Ease of cartridge insertion and removal
- Prevents run-on
- Gives you long worry free performance

Product by range

*Effective 1st July 2018

The **AirFlow 1 RBA 200B** is part of a range of pneumatic dispensers, designed for use with low to medium viscosity sealants and adhesives.

Specifications

- Weight: 2.0kg / 4.3lbs
- Frame Length: 161mm / 6.3in
- Maximum Thrust: 2.2kN
- Maximum Pneumatic Pressure: 6.8bar / 100psi
- Air Consumption: 40 litres/min
- Handle Material: Aluminum
- Frame Material: Steel
- Tool Component Approvals: CE, REACH
- Cartridge Capacity: 400mL (14.0oz)
- Cartridge Ratio: 1:1
- Viscosity: Low/Medium
- Standard Color: Black/Blue

COX™ 2-Component Dispenser

AirFlow™ 3 RBA 200B

A 2-component pneumatic 400mL dispenser for cartridges.

Model shown: AirFlow 3 RBA 200B 400mL

Product advantages

- Air return as standard
- Minimum trigger pressure
- U-opening steel frame
- Quick exhaust valve
- Quiet operation
- Warranty up to 2 years*

Customer benefits

- Fast, accurate and effortless application
- For effortless use and minimum fatigue
- Ease of cartridge insertion and removal
- Prevents run-on
- Less than 70dB
- Gives you long worry free performance
